PROFILE

I am a **social and proactive engineer** with a background in customer success and audiovisual/digital media.
As someone who loves **teamwork**, I like to be involved with all aspects of the projects I work with and collaborate to deliver solutions. Consequently, I consider myself skilled at **seeing the big picture** even in **fast-paced environments**.
I also have a great sense of humor, I'm a musician (I have my own studio!) and my main interests are tech, art and chess.

SKILLS

OOP (Javascript, Go, Python), **React** (Next.js), **HTML/CSS**, **Bootstrap/Tailwind**, **Node.js, Express**, **AWS**,
Relational & Non-Relational DB (SQL, Postgres, MongoDB), **Jenkins**, **Redis**, **Mapbox**, **Prisma**, **Docker**,
Version Control (Git/GitHub/BitBucket), **Adobe Tools** (Photoshop, Illustrator, Premiere), **Google Cloud Platform**,
RESTful API, **Google Suite**, **Stripe, Salesforce, Pipedrive**, **DAW** (Ableton Live, Logic Pro), **Architecture & Scalability**
